Everglades Aquatic Nurseries

706 Plaza Place P.O. Box, 587 Tampa Florida.

General Business Terms

ADDRESS - Please SPELL YOUR NAME AND ADDRESS IN PRINT FORM, so that there be no danger of mis-sending your order. Your not doing so might cause delay and death to Plants or Fish.

SHIPMENTS - All shipments go forward in rotation (as they come in), we reserving the right to either ship by Express or Parcel-post, whichever may be the safest at the time. By doing this, we are looking out for your interest. On PARCEL-POST ORDERS OF LESS THAN \$1.25, PLEASE INCLUDE 15¢ FOR PARCEL-POST CHARGE. All fish shipments go forward by Express only.

TERMS - Cash with all orders. Aquatic Plants and Fish if sent (either by Express or Parcel-post) C. O. D., must have a deposit of 25%.

SHIPPING CANS -

Our Shipping Department is endeavoring at all times to deliver to you live healthy specimens, using their best judgment on, as to how many fish will ship safely in a can in the Summer, or in thermostatically packed cans in the Winter.

1 GAL. AMERICAN CAN (For shipments of one or two pair of small fish) NOT RETURNABLE \$.15 EACH

LARGE 5 GAL. AMERICAN CAN (Carry from 10 to 30 Medium fish) NOT RETURNABLE \$.50 EACH

MEDIUM GERMAN CAN (Carry from 35 to 50 Medium Fish) RETURNABLE FOR CREDIT \$1.25 EACH

EX. LARGE GERMAN CAN (Carry from 50 to 80 Medium to Large fish) RETURNABLE FOR CREDIT \$1.50 EACH

"RETURN PREPAY OF THESE CANS COST ONLY 20¢ IF RETURNED BY EXPRESS"

REPLACEMENTS -

We replace Fish and Plants only when accompanied by a Bad Order Slip from the Railway Express Agency, stating whether shipment was dropped (can bent) or allowed to get chilled. Please test water temperature with a thermometer when examining shipment on arrival. If anything is wrong, the expressman will give you a bad order report.

WE WILL REPLACE YOUR FISH OR PLANTS AND PUT IN CLAIM FROM THIS END.

"TROPICAL FISH AND HOW TO HANDLE ON ARRIVAL"

All fish leave here in robust healthy condition, but on account of some trips being rather long, it is best to handle them carefully and properly when they arrive.

- 1st. Leave your telephone number with the Express people, with instructions that they call you immediately on arrival of the shipment.
- 2nd. Meet the train and take shipment off yourself. This eliminates the danger of a shipment being dragged all around town before it is delivered to you. Such trucking is dangerous, whether it be Winter or Summer.
- 3rd. Take thermometer with you and test water temperature at Express Office. If same is below 70, the fish have been chilled and you should get a Bad Order Report.
- 4th. On arrival home, it is always best to have a clean aquarium ready for the new arrivals. They should not be put with your other fish for at least two or three days. Strain the water from out of our cans and put as much of it as you can into your aquarium. Then, float our fish in jars into your aquarium, so that the temperature in jar equalizes with that in the aquarium. It is also best to add a little salt to your water, about three large teaspoonfuls to every twenty (20) gallons of water. This will act as a tonic and will not bother your plants.

"MADAGASCAR LACE PLANT" (North Madagascar)

APONOGETON (Ouvirandra) FENESTRALIS

THIS RAREST AQUARIUM PLANT, WHILE STILL SCARCE, IS
AVAILABLE AT A REASONABLE PRICE

This plant if handled properly, is the most outstanding and beautiful object in an aquarium. Its Lacy leaves attract everyones attention, they just don't seem real, and remind one of fancy lace. It blossoms in the shape of a double headed white Shepherds Crook. It is "KING" OF AQUARIUM PLANTS and the Center of Attraction.

YOUNG SPECIMENS \$10.50 PER PLANT

APONOGETON ULVACEUM (South Madagascar)

"RUFFLED LACE PLANT"

Really one of the most gorgeous varieties of the Lace Plant family. Leaves transparent, strong ribbed, but with no holes, still, giving the impression that the holes are there. In color, leaves are Pea Green and from 2" to 4" in width. Blossoms Golden-White in the shape of a double headed Shepherds Crook. Undoubtedly "QUEEN" OF AQUARIUM PLANTS.

EX. LARGE PLANTS \$7.50 PER PLANT

MEDIUM SIZE PLANTS \$4.50 PER PLANT

APONOGETON CRISPUM (Ceylon)

A beautiful variety of the Lace Plant family. Similar to the above Ulvaceum, but with leaves more narrow. Edges of leaves are also undulated and of a Pea Green. Blossoms White and also in the shape of a Shepherds Crook. We name this the YOUNG "PRINCE" OF AQUARIUM PLANTS.

EX. LARGE PLANTS \$2.50 PER PLANT

NICE 6" PLANTS \$1.25 PER PLANT

APONOGETON ELONGATA (Australia)

This variety from Queensland, Australia, also belongs to the Lace Plant family. Has leaves translucent, showing no holes, and has the same veining as the Madagascar Lace Plant. Propagates easily from seed. Blossoms are a Golden-Rod color and in the shape of a Shepherds Crook. Because of its easy propagation, we are happy to offer it at a most reasonable price. The "PRINCESS" OF AQUARIUM PLANTS.

PER PLANT \$1.00

APIUM ASIATICA "WATER CELERY"

A small decorative plant especially adaptable to small aquariums, belonging to the Celery family. The April 1937 issue of The Aquarium gives a very good description of this New Aquarium Plant.

PER PLANT 40¢

WATER ORCHID

One of the very Newest introductions, with medium Green, heavy leaves. Just the plant to fill that awkward spot in your aquarium. Easily grown. Will bloom in shallow aquariums.

PER PLANT 75¢

"AMAZON SWORD PLANT"
(Echinodorus Specie)

This New, many leaved plant grows very easy under aquarium conditions and propagates from large plants only. These produce young on shoots that grow out from the center of the Mother plant. These young plants may be pushed down into the sand for further growth. See magazine write-up of February 1938 issue of "The Aquarium." This plant undoubtedly is the natural leaf on which Angel Fish lay their spawn in the Amazon River.

4" PLANTS \$.40 PER PLANT - 8" to 12" MOTHER PLANTS \$.90 EACH

NEW GIANT "WIDE LEAF AMAZON SWORD PLANT"

A much larger edition of the now well known "Sword Plant", the leaves of which when full grown are from 3½" to 5" in width, 12" to 18" in height. At present we offer young plants only about 5" in height - Very Rare - Propagates same as the above.

PER PLANT \$1.25

(2 Varieties - Wide or Narrow) "WATER SPRITE" (Ceratopteris siliquosa)

FROM THE PHILIPPINES AND BORNEO

Still the most outstanding and reasonable priced beautiful oxygenating plant. A true SUB-AQUATIC FERN. Very easily propagated, making a fine center plant for small aquariums. Propagates by young plants growing on old leaves.

PER PLANT 50¢

HONDURAS CELLOPHANE PLANT

Leaves a beautiful Green cellophane color and translucent. A most outstanding reasonably priced Aquarium Plant. As beautiful as the Lace Plants, but much easier to grow.

PER PLANT 75¢

"WATER NASTURTIUM"

(Neobeckia lacustre)

A small bushy and unusual Aquarium Plant. Particularly adapted to small aquariums, its many leaves and its easy propagating nature makes it especially desirable. Very ornamental. See picture and article in July 1937 issue of The Aquarium.

PER PLANT 60¢
